- Ideal for under a cast
- Soft, knitted cotton
- Features a dispensing box

**CAST SPLINTING MATERIAL**

JOHNSON &amp; JOHNSON

**Orthoplast® Splinting Material****ORTHOPLAST ORIGINAL**

JJ9021	Plain 18" x 24"
JJ9022	Perforated 24" x 36"

**ORTHOPLAST II**

JJ9121	Plain 18" x 24"
JJ9122	Perforated 24" x 36"

**ORTHOPLAST ORIGINAL:**

- Highly conformable, low-heat thermoplastic material
- When heated, it may be cut or molded to any shape and will adhere to itself
- It can be riveted, strapped, bonded, hinged or butt-bonded
- Can also be used in cylindrical casting procedures

**ORTHOPLAST II:**

- Features drapability which molds to the body contours without wrinkling
- Primarily designed for upper extremities and is ideal for hand splints
- Self-adhering when heated
- Wax coated surface
- Finished splints can be riveted, strapped, bonded, hinged, or butt-bonded
- Setting time of 3 to 4 minutes

**HEAT GUN**

MASTER

**Heat Gun**

15002B 650° F/343° C

- Use to adhere splinting materials
- Quiet running
- 120 Volts, 4.5 Amps, 475 Watts
- UL and CSA listed

**SPLINTING PANS****Form-Splint™ Dual Control Splinting Pan**

SP1501 28 1/2"W x 21"D x 7 1/2"H

- Spacious stainless steel interior accommodates splinting sheets up to 24" x 18" working tank with a cover
- Features dual thermostatic controls on high (175°F) and low (160°F) that can be adjusted individually
- Dual independent heating elements for both settings provide quick warm up and automatically convert to a more efficient circuit once the working temperature is reached
- Grounded hospital grade plug and high heat safety switch

### Forma-Splint<sup>TM</sup> Variable Temperature Splinting Pan

SP1502 19 1/2" x 11 7/8"

- A compact design makes this model ideal for clinical use, accomodating sheets up to 19" x 11"
- Compact and rugged it also features a stainless steel housing trimmed in black with an insulated stainless steel hinged cover
- Variable temperature thermostat maintains water at controlled temperatures between 150°F and 190°F
- As in the 1501, the drain system and valve are 100% brass and both models also have an integral digital thermometer for easy monitoring of water temperature
- Grounded hospital grade plug and high heat safety switch

### Forma-Splint<sup>TM</sup> Compact & Lightweight Splinting Pan

SP750 14" x 10"

- Extremely compact, the lightweight design makes this model an ideal unit for smaller splinting requirements or for use in varying locations
- Features a 13" x 9 1/2" x 1 1/4" deep stainless steel working tank with a lexan cover
- Variable temperature thermostat maintains water at controlled temperatures between 150°F and 190°F
- The housing is constructed of tough urethane in a gray upper and black lower finish with convenient hand recesses for safer mobility
- At 5 1/2 lbs. empty, the unit is lightweight but heats to the proper temperature in just 15 minutes
- Grounded hospital grade plug and high heat safety switch

### VELCRO<sup>®</sup> LIKE HOOK & LOOP CLOSURE

#### Velcro<sup>®</sup> Like Hook and Loop Closures

##### SEW ON - WHITE

15039A	1" x 25 Yd Hook
15039B	1" x 25 Yd Loop
15039C	2" x 25 Yd Hook
15039D	2" x 25 Yd Loop

##### PRESSURE SENSITIVE - WHITE

15040A	1" x 25 Yd Hook
15040B	1" x 25 Yd Loop
15040C	2" x 25 Yd Hook
15040D	2" x 25 Yd Loop

- Available in other special colors upon request
- Sew on tape can be either glued or sewn on
- Pressure sensitive tape has an adhesive surface that can be pressed against an object
